- Circular sanitary bins for indoor use, operated by pedal and designed to stand directly on the floor.
- Suitable for washrooms of all usage frequencies, depending on their capacity. Models suitable for public and collective facilities.
- Equipped with a soft-closing system that allows the lid to close smoothly and silently.
- Odour-proof closure.
- Very light pedal operation.
- Equipped with a handle at the rear for easy and convenient movement.
- Very easy to empty and clean thanks to the removable inner plastic bucket.

Capacity	3 L (PP1303-B-C-CS)
	5 L (PP1305-B-C-CS)
	12 L (PP1312-B-C-CS)
	20 L (PP1321-B-C-CS)
Weight (empty, en kg) PP1303	0,63 -, -B / 0,56 -C, -CS
Weight (empty, en kg) PP1303	0,84 -, -B / 0,75 -C, -CS
Weight (empty, en kg) PP1303	1,62 -, -B / 1,45 -C, -CS
Weight (empty, en kg) PP1303	2,00 -, -B / 1,80 -C, -CS

DIMENSIONS

COMPONENTS AND MATERIALS

- **Body:** Circular. Good resistance under normal conditions of use.
- **Lid:** Circular. Silent and odour-proof. The lid opening mechanism is based on a hinge system made of thermoplastic material.
- **Base:** Made of black thermoplastic, non-slip, insulating the bottom of the bin from moisture and keeping the bin stable in place.
- **Inner bucket:** Made of black polypropylene, with a metal handle for easy removal.
- **Pedal:** Metal, with a non-slip black thermoplastic piece attached to its upper part. Pressing the pedal activates the lid opening mechanism.
- **Handle:** Metal. Located at the upper rear of the bin to facilitate transport.
